FUSION COUNCIL TICKET. First Ward. Oliver Hodgson, Democrat. J. R. Murdoch, Republican.

Second Ward. George Burbidge, Democrat. Charles Cottrell, Republican. Third Ward.

No fusion ticket. Fourth Ward. L. E. Hall, Democrat. John F. Bennett, Republican.

Fifth Ward. W. R. Wallace, Democrat. Henry Cohn, Republican.

The foregoing is, in embryo, a fusion Councilmanic ticket as projected by the Federal brigade. It was announced from authoritative Smootite sources yesterday that fusion on the Councilmanic ticket had been agreed upon, and that the ticket would be substantially as here printed.

Republican ward conventions will be held this evening. Following the example of the Democrats, it is probable that two candidates for the Council will be named in each ward, but that one of these, together with one Democrat in each ward, will be withdrawn within a few days and a joint ticket placed in the field by the action of the committees of the two high contracting parties.

How Plot Will Work.

In the First ward it is planned to have Herbert L. Penrose, the Demo cratic nominee for the short term with cratic nominee for the short term with-draw. Then a joint ticket is to be named, composed of J. R. Murdoch, Re-publican, and Oliver Hodgson, Demo-crat. Who the poor "dummy" to be nominated for the other place by the Republicans tonight and subsequently withdrawn in favor of Mr. Hodgson is to be, is not known. The night the Democrats nominated Mr. Penrose, how-ever, he permitted to go unchallenged a taunt that he was to be withdrawn later taunt that he was to be withdrawn later in the campaign for the benefit of a

In the Second ward George Burbidge, In the Second ward George Burbidge, the Democratic nominee for the long term, is to be allowed to remain, but George G. Smith, the Democratic nominee for the short term, is to be pulled down and Charles Cottrell substituted. It is not known who will be the Republican "dummy" named tonight in this ward.

In the "Third ward no fusion ticket

would never sacrifice himself to pro-mote fusion. Judge W. H. King and other anti-fusion Democrats thought that they had selected a man after their own hearts, but, if the confident pre-dictions of the Federal brigadiers are well founded, Bishop Maxwell is pretty common clay after all common clay after all.

In the Fifth ward the Republicans to night are programmed to nominate Henry Cohn for the long term and F. B. Platt for the short term. Mr. Platt, it is announced, has agreed to withdraw when the signal is given, in order that W. R. Wallace, one of the Democratic nominees, may be substituted. Samuel Taylor, the other Democratic nominee, will likewise retire more or less grace fully from the field.

Some Probable Switching.

It will be observed that the Demo-cratic nominee in each of the four wards where there is to be fusion is the wards where there is to be fusion is the man named by the Democrats for the long term. When the ticket is finally completed, however, it is probable that two of the four Democrats will be switched to the short term. Thus, each party will have two long terms and two short term nominees. This, the fusionists announce, will be an equitable division

Under the law the joint Councilmanic tickets will appear both on the Republican and Democratic ballots, A voter voting either the straight Republican or straight Democratic ticket, therefore, will vote for the Demo-Re-pablican-Smootized Council ticket.

While there is strenuous opposition to this fusion, the programmers swear they are strong enough to override it. Resolutions were passed in each Democratic ward caucus empowering the ward cen tral committee to "accept resignations" or fill any vacancies otherwise caused on the ticket, and similar resolutions will be passed in the Republican ward conventions tonight.

# PRESIDENT OF JUNIOR CLASS

Chosen to Fill the Office.

OTHER OFFICERS ARE ALSO ELECTED

Do in University Social Life.

Lomas L. Turner was unanimously lected president of the junior class of the university for the coming year, at a meeting held Thursday noon. At the same meeting the following officers were chosen to assist Mr. Turner: Wilford Cannon vice-president: Maude Williams secretary; R. E. Gardner, treasurer, Ralph Hartley, Joel Barlow, Edna Coats and Zella Scofield members of the executive committee Arthur Parsons and Fred Sharman were elected editor and manager of the Year Book. Mr. Sharman and Mr. Parsons were given complete control of the book, with the power of calling upon any member of the class for assist-ance.

Thursday, there was no one to contest the position with him. During the past two years Mr. Turner has been a mem-ber of the executive board of the '09

suling a course in mining engineering. As a student he ranks above the average. The selection of officers in the election favored nearly every department of the university. The arts school was recognized in the selection of Mr. Hartley, Miss Williams and Miss Scofield, the engineering school in the selection of the remainder of the staff. Mr. Barlow, who is a member of the new executive board, was the president of the class last year. Miss Edna Contes is one of the few girls belonging to the class who is taking an engineering course.

The coming year will be the most important one in the career of the junior class. During this year the students are expected to lead school life socially. In fact, lead the school in almost every line. The junior prom, which will be given in February, is, and has been in the past three years, the biggest social event of the school year. The preparation of the Junior Year Book is a task that will require their best efforts. So far, a junior Year Book has not been issued at the university which has puld expenses. But two year books have been issued. It is said by many that they compared favorably with those issued by eastern schools. The freshmen class also held a meeting Thursday afternoon to complete the election of officers and effect a permanent organization. Will Ferguson was chosen athlette manager. Roy Coates, A. G. Wooley and Hugo Anderson were appointed to draft a constitution.

Friday an important meeting of the entire student body will be held. Membership cards will be issued for the first time this year. It is also probable that an election of a Coronicle editor and athletic representative may be held.

The senior class will elect officers Friday afternoon.

ART EXHIBIT FOR THE STATE FAIR

Since it became known that Lee Greene Richards and M. M. Young were to constitute the hanging committee for the exhibit of paintings at the State fair, the entries have been coming in rapidly. It is expected that there will be an especially good exhibition of oils, as well as some excellent sculpture. The exhibition of painted china will be unusually good. The exhibit from the district schools and the Gordon academy will be in the main building and promises to be an excellent one. Supervisor Frank J. Hewlett of the Manufacturers building reports that all the space has been taken and that there is considerable demand for more.

Would you vote a fusion ticket?"
Judge King was asked.
"I can't conceive of fusion being possible," replied Judge King, "and I don't care to answer such a question until I am confronted with a fusion ticket."

being a creditor nimes in the sum of \$7000.

The complaint declares that the property is already mortgaged in the sum of \$70,000, and the labor accounts for the last month were over \$10,000, and remain unpaid. The plaintiff says that unless a receiver is appointed liens will probably be filed, which would involve the company in several lawsuits.

The answer of the company to the company admits all of the allegations of the complaint, and joined in the request that a receiver be appointed at once to act under the instructions of the court with reference to the disposition of the property, and to receive all claims against the company.

#### NEWTON CASE TO BE DECIDED SATURDAY

Judge C. B. Diehl will render a decision in the case of William Newton, charged with receiving a stolen check for \$300, at 10 o clock Saturday morning. Thursday morning he heard the motion on the part of the defense to dismiss the case, and took it under advisement until Saturday morning.

At the resumption of the case Thursday morning, Peter Olson, the prosecuting winess, was recalled by the defense for further cross-examination, to which the State unavailingly objected. Olson was examined regarding an affidavit he made shortly after the loss of the check and his testimony Thursday was considerably at variance with statements contained in the affidavit. Olson also became greatly confused.

A. H. Boyer, a messenger boy, who is charged with destroying property in demolishing a messenger box on Commercial street, which put 100 other boxes out of commission for a time, has disappeared from the city and cannot be located. Judge Diehl ordered the issuance of a hench warrant for him Thursday afternoon.

His ball was fixed at \$100, and he will be sentenced today. He was arrested near the Rio Grande Western depot by Policeman J. M. Lyon Thursday morning.

The demurrer of the defense in the case of Daniel McQueen, manager of the Port-land coffee house, charged with violating land conce house, charged with violating the pure food ordinance, was overruled by Judge Diehl. McQueen is charged with allowing a baking place to be in an unsanitary and tittly condition. The case will be tried October 8.

In the Third ward no fusion ticket will be named. This ward is regarded by the machine plotters as being so hopelessly priest-ridden that fusion would be unnecessary. It is probable, however, that the church will exert every effort to elect F. S. Fernstrom, the Democratic nominee for the long term, and some Republican convertion tonight will probably nominate John F. Bennett for the long term and S. R. Bavis for the short term. ### ACTION OF COUNCIL COMMITTEES ON ROUTINE

Little was done at the meeting of council committees Thursday night with the exception of a few matters of routine.

The committee on public grounds recommended that Council approve the memorial suggested by City Engineer Kelsey at Monday evening's meeting Mr. Kelsey suggested that the City Council communicate with the Department of Agriculture and Forestry at Washington, and request its co-operation in planting trees on the water shed at Farley's canyon. This the engineer says will greatly improve the purity of the city water.

### AMERICAN WOMEN RIGHT IN LINE

They Hold Enthusiastic Meeting and Lay Plans for Party Success.

RECRUITS RECEIVED FROM OTHER PARTIES

Resolutions of Sympathy Concerning Death of Matthew Rhodes Are Passed.

A rousing meeting of the Woman's American club was held Thursday afternoon at the residence of Mrs. John Shea, 165 West Fourth South street. While the meeting was more for business than for anything else, it was nevertheless an enthusiastic one, and the utmost good feeling and confidence in the success of the party pervaded it. Mrs. Joseph M. Cohen, president of the

club, presided.

Three women who have formerly been active workers in the Democratic ranks and one who has been active in Repub-lican circles attended the meeting, signed the club roll and announced their intention to uffiliate hereafter with the American party. Because they desire no notoriety, their names were withheld by the club officers, but their presence and carnestly patriotic attitude was a source of great gratification to the club members.

Two Speeches Are Made. Judge J. E. Darmer, chairman of the American party city committee, and Judge A. J. Weber were present and made short, earnest speeches. They did not discuss the issues of the campaign, because the members of the Woman's American club do not have to be educated along that line.

Messrs. Darmer and Weber did impress upon the women present, however, the necessity for hard, earnest endeavor to elect the American ticket. Coupled with this they made many practical suggestions to the women as to how they could further the American cause. These suggestions were accepted in good spirit, many questions were asked by the women present and a general political discussion ensued.

Several women volunteered to act as canyassers for the city committee or to perform any labor which may be required of them. The names of these will be sent to F. R. Christenson, secretary of the committee, and the volunteers will be called for as fast as their services are required. services are required.

### CHARLIE CLAY SOUGHT BY RHYOLITE POSSE

Killed an Indian, and Twenty Redskins Are Now Chasing Him.

RHYOLITE, Nev., Sept. 26,-Commanding twenty Indians armed with Winchesters, and mounted on fleet horses. Deputy Sheriff John Casey of Rhyolite is beating the bush for Charlie Clay, an alleged 'bad man" who shot and fatally wound d an Indian by the name of "Little Charlie" in the vicinity of the Pahrump ranch thirty miles south of here, Sun-day night. "Little Charlie" was employed at the ranch and lived at an Indian camp about a mile distant from the main building. After the shooting, Clay repaired to the ranch, told what he had repaired to the ranch, told what he had done, and secreted himself in Foreman Osborne's quaters. Mr. Osborne hastened to the Indian camp to dress the wounds of "Little Charlie" and on his return found Clay armed with a Winchester and a 44 Colt revolver. Clay covered Osborne with the former and could not be induced to surrender. He then made his escape. It is expected that a desperate fight will occur when he is brought to bay by the Sheriff's posse.

#### STOVALL AND PATTERSON HAVE A FIERCE FIGHT

COALVILLE, Sept. 26—A rasty scrap between Z. F. Stovall and M. J. Patterson, the night and day operator at Castle Rock, this county, was alred in Justice N. J. Peterson's court this morning. Stovall was arrested and brought here yesterday charged with assault with a deadly weapon. The preliminary hearing took place this morning, and the defendant was bound over to the District court, his bond being fixed at \$500. He was unable to furnish the bond, and is now in the county jail. Judge H. H. Handerson of Ogden represented defendant, while the State's interest was looked after by County Altorney Wight. The fight occurred on the morning of September 23. In the depot building at Castle Rock, and was witnessed by a section foreman named France. The two men passed some het words and then Stovall made for Patterson. They made several passes at each other, and the latter picked up a stove poker and used it on his assailant, but being much the smaller man of the two he soon lost the poker, and Stovall used a cobble-stone in his hand and beat Patterson several times with this, knocking him to the floor; the latter's wife then took a hand and she was struck on the back of the head and forchead with a rock and knocked down. Stovall was then taken out of the building by the section foreman and led to his room Both men are wearing scars; also the woman.

PRICE. Sept. 26.—Commissioners of Carbon county met today and bought a site for the new courthouse, agreeing that work on the structure would be started as soon as plans and specifications can be approved. The site selected was the Pace lot, across from the public square. An option on the property was procured by a committee of citizens at \$1250, and \$1000 will be donated by the citizens.

Commissioner J. A. Harrison of Helper was unable to meet with the others on account of the serious illness of his son. William Harrison, and this afternoon word was received that the boy had died at noon.

The defense for C. L. Maxwell, who shot L. C. Reidel last Sunday in Helper, has been active today procuring evidence which will be used at the trial. The theory they are working on will be to attempt to prove that Maxwell was the victim of a prearranged plot to "get" him.

HIS ARRAIGNMENT IS SET FOR FRIDAY

Court Holds That the Offenses Are Separte and Distinct in Fact.

Former Chief of Police George Sheets must face a jury of his countrymen on two charges, one of conspiracy, the other for receiving a bribe. This was the gist of Judge Morse's decision Thursday after hearing arguments on Sheets's plea in abatement,

Attorney E. A. Wedgwood, one of Sheets's counsel, addressed the court for several hours Wednesday. District Attorney Loofbourow replied for the State, and Thursday morning, S. R. Thurman, of counsel for the defense, closed the argument.

Judge Morse said, after the arguments were all in, that he would not take the matter under advisement, but was ready to render his decision at

that time.

He said that he could see plainly the force of the arguments of Sheets's counsel, if both charges had grown out of the same transaction, but he added that this was not true. He held that the committing justice had not exhausted his jurisdiction when he bound Sheets over on the charge of conspiracy. Judge Morse went further. He said that if Sheets was tried and acquitted of the charge of conspiracy, this fact would not operate as a bar to an indictment and trial for receiving a bribe, because, the court said, he might have accepted a bribe, yet played no part in a conspiracy. that time spiracy

After rendering his decision, Judge Morse requested Sheets to stand up and be arraigned on the charge of receiving a bribe. The farmers pay \$2.50 a ton for the coal at Scotield, and are discouraged by the company, which does not want to be troubled by serving them. All the merchants seem to have joined the trust and prices have soared, many of which are unreasonable. Here is a sample: When wheat was \$1 a bushel, the merchants sold a brand of breakfast food for 25 cents a sack and gave 10 per cent off for cash. Wheat is now 55 cents a bushel, and they charge 30 cents straight for the same kind of breakfast food.
